This is information for those who have loved ones affected by Alzheimer's disease.

Millennium Psychiatric Associates is conducting a medical research study with an investigational medication for Alzheimer's disease. The study is overseen by a physician, and if eligible, study related diagnostic evaluation, physical exam and study medication will be provided. Participants may be compensated for their time and travel.

Contact Millennium Psychiatric Associates today to see if your loved one qualifies for this research study. Call 314-298-0027
